

Connecting to SBM-Employees on Android

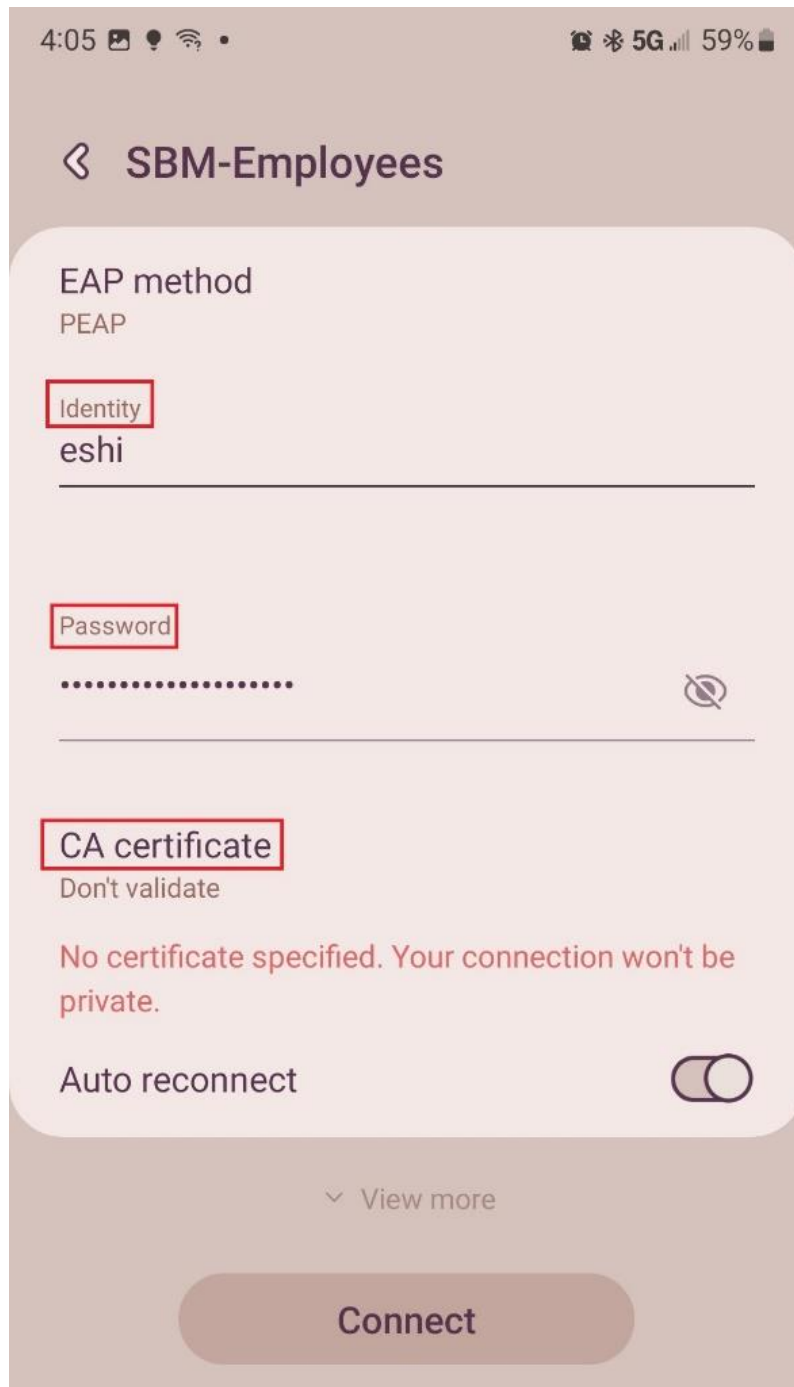

1. Open your **Settings** app and select **Connections**. Next click **Wi-Fi**:

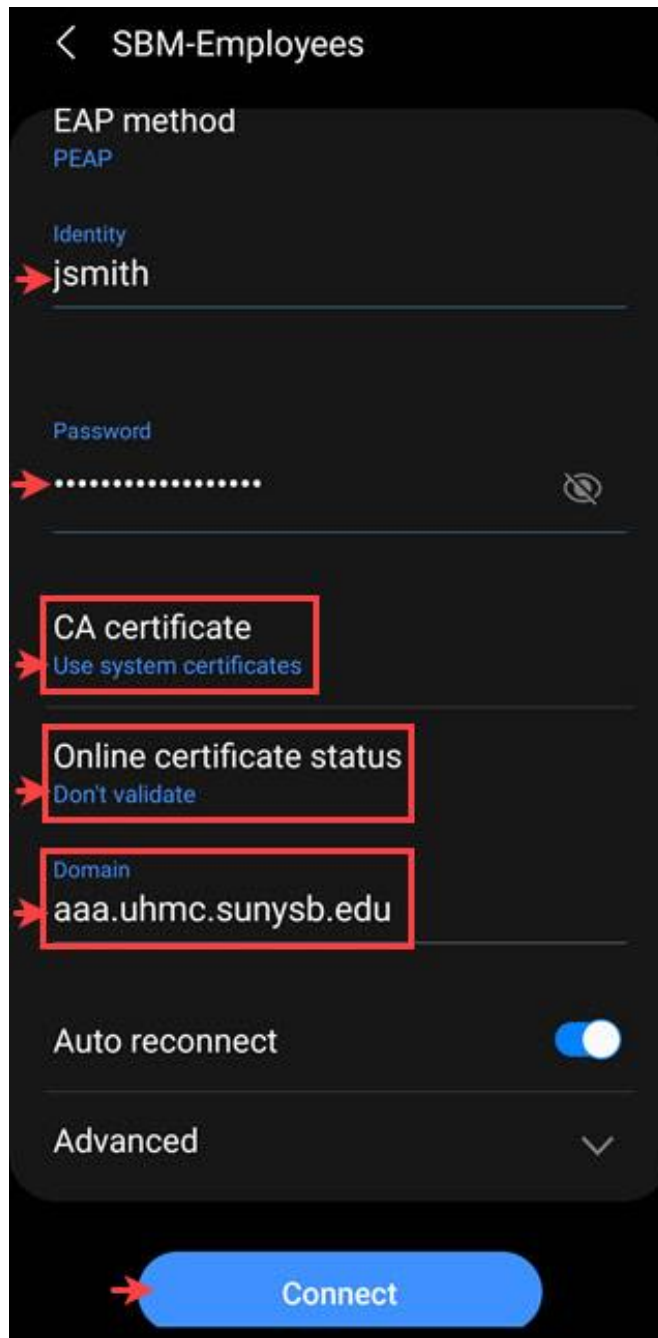

2. In **Wi-Fi**, select **SBM-Employees**. Please note that *SBUMC* is no longer needed on mobile phones, as SBM-Employees is now the primary wireless for employee mobile devices.

3. When logging into SBM Employees, there are two version log-ins
- a. If your log-in show this below, then under **CA certificate** set it to be **Don't validate**. **Identity/Anonymous Identity** and **Password** will be your **UHMC** credentials. Assistance for your UHMC login can be obtained from the Help Desk (631-444-4357). Once complete, hit Connect:

- b. If your log-in show this below, then under **Identity/Anonymous Identity** and **password** will be your **UHMC** Credentials. Then input the following:
CA certificate: *Use system certificates*
Online certificate status: *Don't validate*
Domain: *aaa.uhmc.sunysb.edu*
Click the Connect button.

4. Your Android device should now be connected to **SBM-Employees**.
