

# Stony Brook Medicine MyDesktop for Apple iOS Devices.

(iPhone and iPad)

*SBUMC has a new remote login system to access the Virtual Desktop Interface. This will enable you to access applications published thru the Citrix environment.*

## Installation instructions:

Go to the **App Store** on the iPad and search for **Citrix Receiver**. Install this app. *You will need to have an iTunes account in order to download and install apps.*

You will see the icon installed as Receiver.

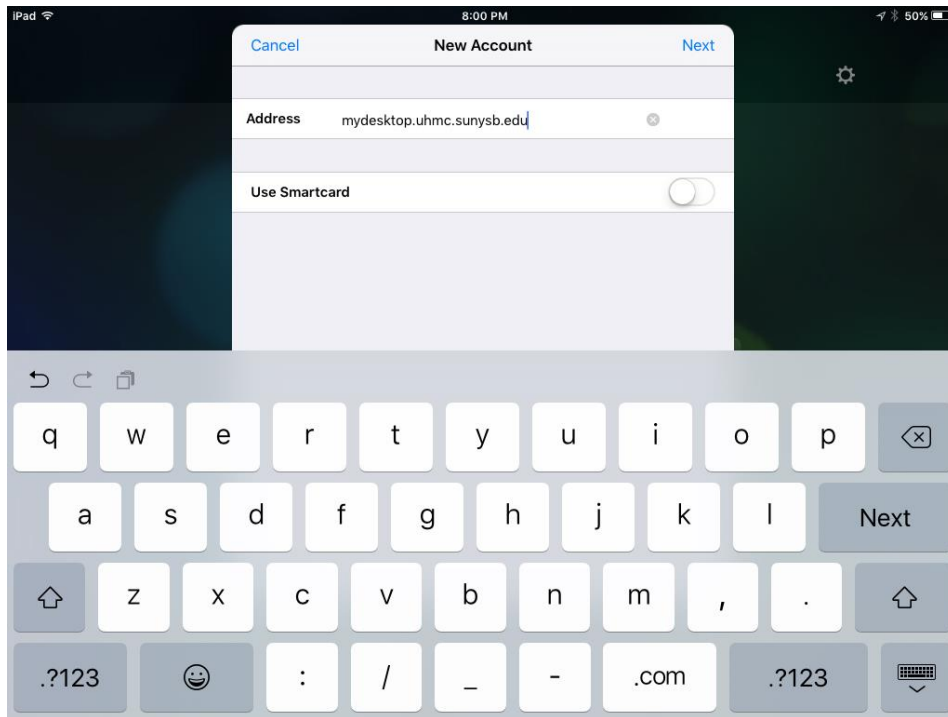

Receiver

Tap on it once, and it will launch the Citrix**Receiver** window.

Tap Add Account

In the **New Account** window, enter in the Address field:  
**mydesktop.uhmc.sunysb.edu** then click Next

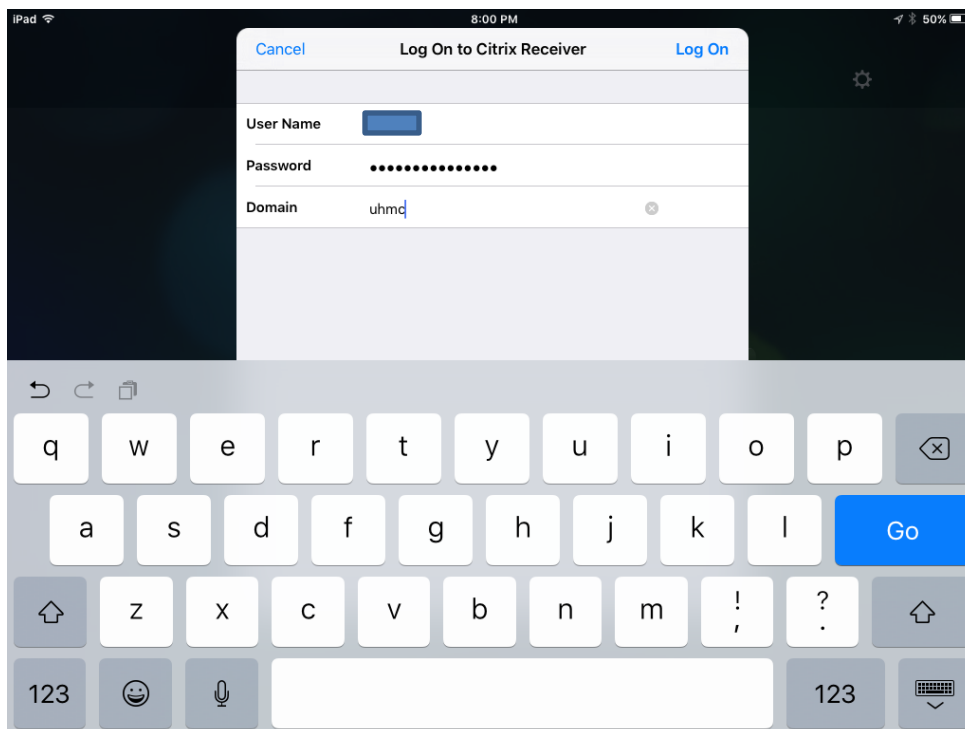

In the **Log On to Citrix Receiver** window, enter the following information:

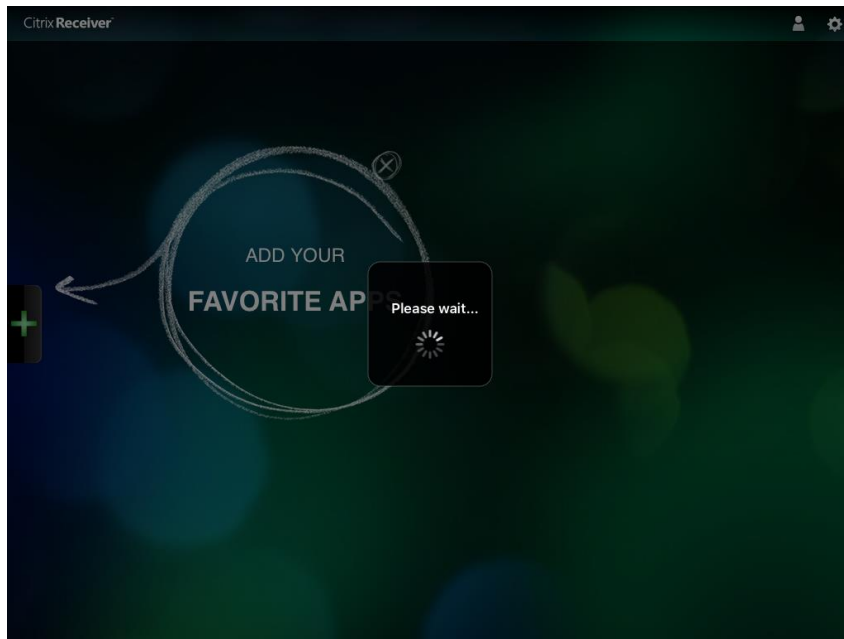

**Username:** <your UHMC domain username>

**Password:** <your UHMC domain password>

**Domain:** uhmc

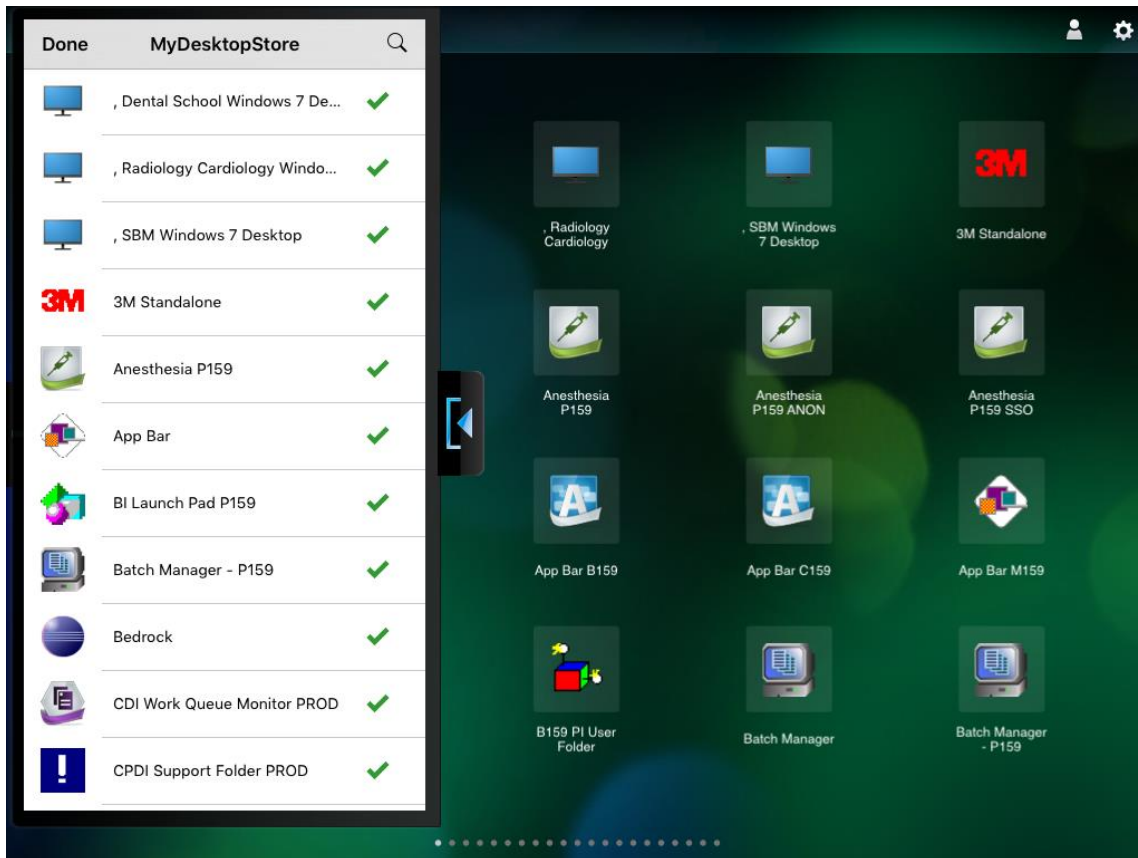

You will see this screen as it loads the icons...

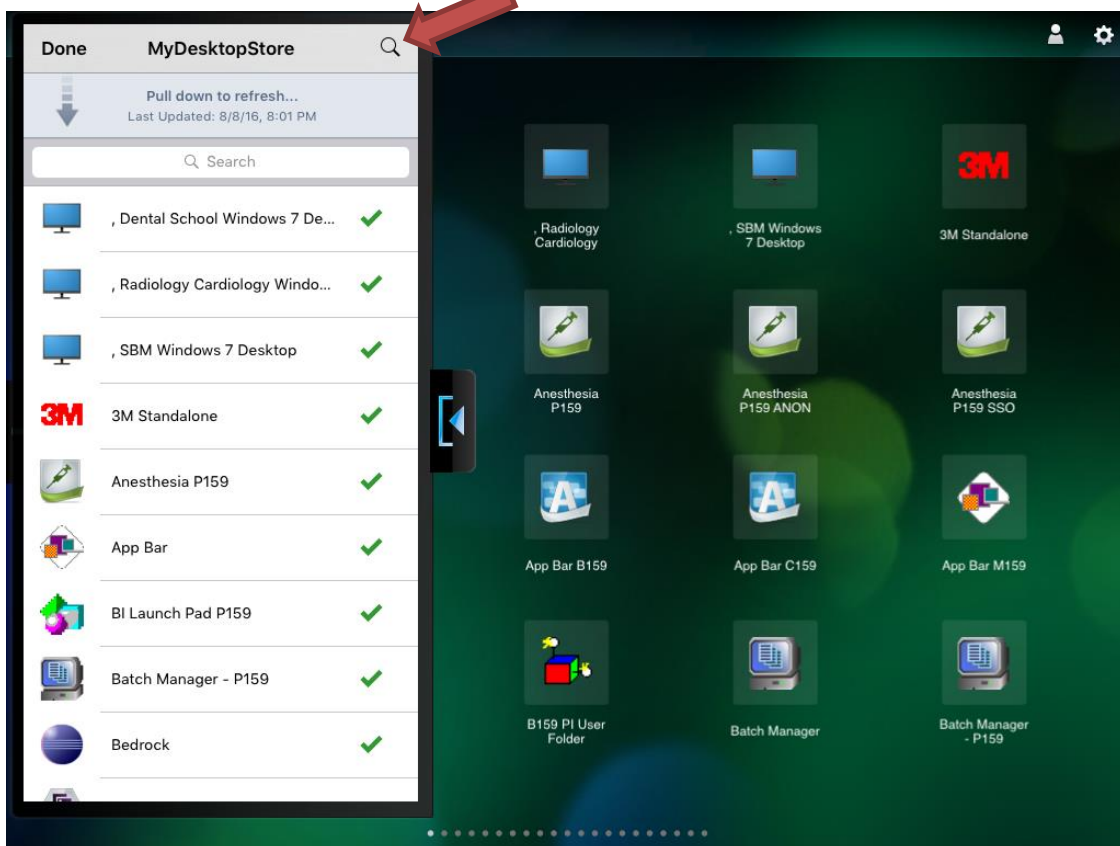

This is the main screen where you can choose an application or a **virtual desktop**.

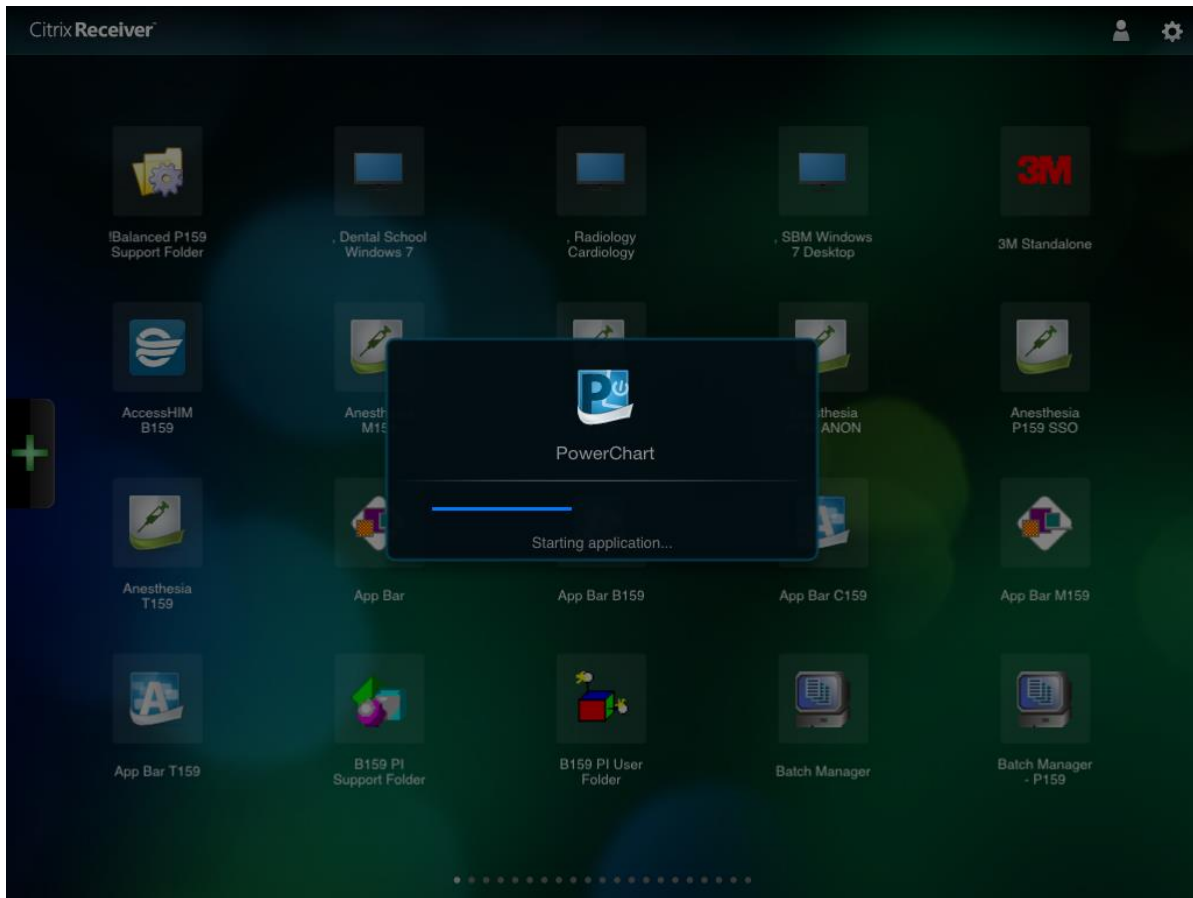

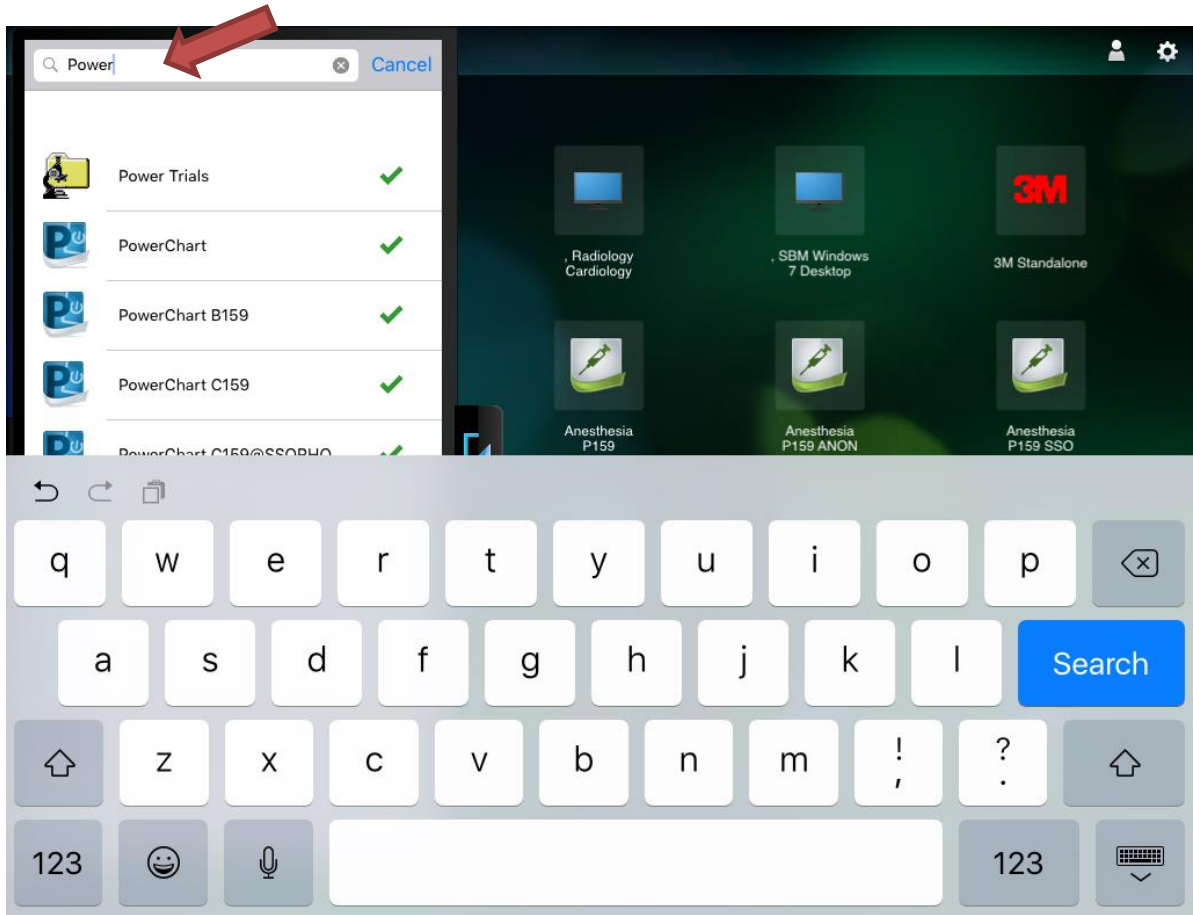

You can also choose an app or virtual desktop by clicking the + sign on the left.

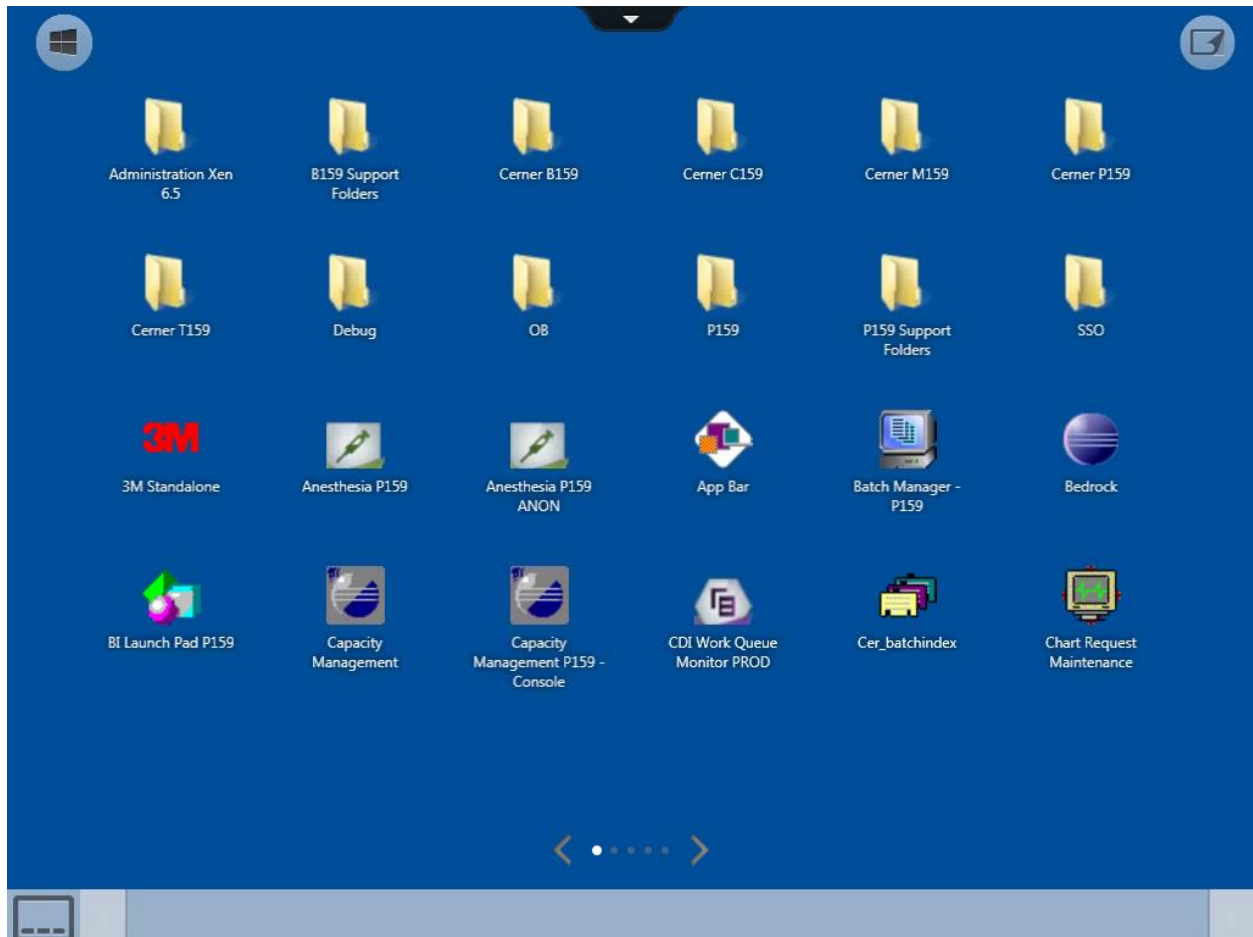

Click the magnifying glass to search.

## Screenshot of the virtual desktop

You will now have a Windows 7 Desktop in which you can access the applications and websites.

Launching **Internet Explorer** will bring to you the **Intranet Portal page**.

If you are going to end the virtual desktop session, click the icon on the upper left and select “Disconnect”.

If you are ending your session on the main Citrix page, click the person icon on the upper right hand corner and select “Log Off “
