

SecureW2 for iPhones

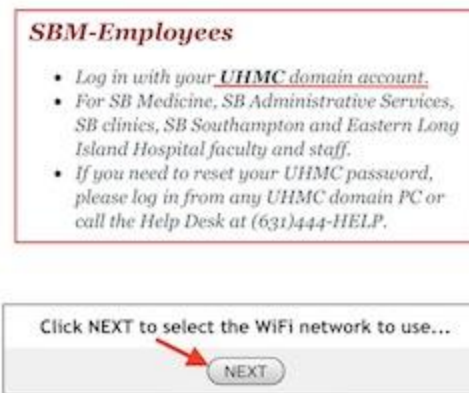

Open configuration options

OFF-SITE Users: Open your web browser to <http://sbmwifi.com>, then skip to **STEP # 4** on **Page 2**.

1. **[ON-CAMPUS Only]** Go to **Settings > Wi-Fi**, then click on **SBMED-Guest** from the list of available Wi-Fi networks. A mini browser will pop up. Click on the **Student, Faculty, & Employee Access** button.

2. **[ON-CAMPUS Only]** Scroll down and click the **NEXT** button.

3. **[ON-CAMPUS Only]** In the **iOS, macOS, and Windows** section, click the **Setup WiFi for: SBM-Employees** button.

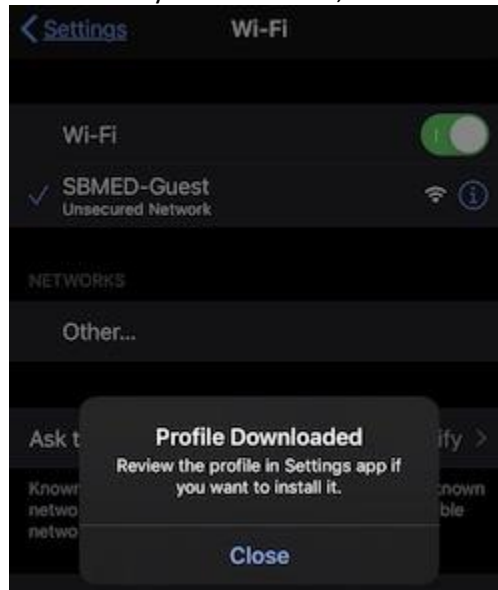

4. You will be redirected to the SecureW2 portal and your device should be auto-detected. Enter your **UHMC username**, then click the **JoinNow** button.

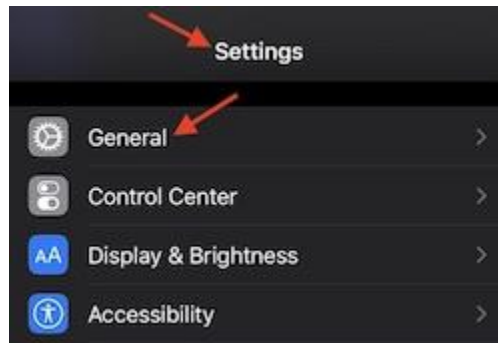

5. The page below will display briefly, but take a look at these instructions in case your iOS device does not stay on this page. We will go through these in the next steps.

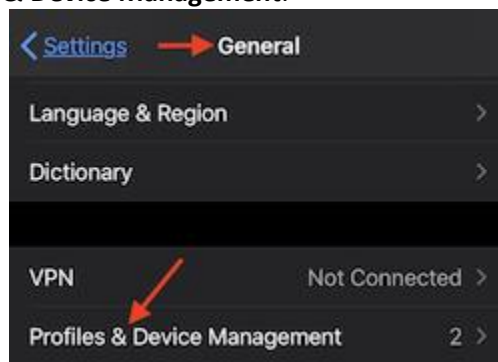

6. Once the SecureW2 profile gets download to your iOS device, click **Close**.

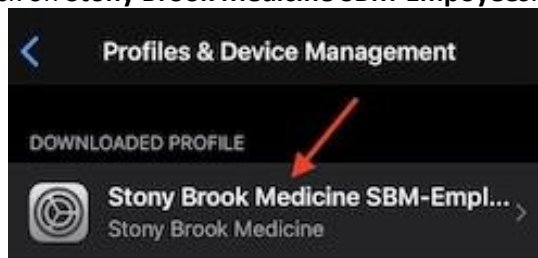

7. Go to **Settings > General**.

8. Scroll down and click on **Profiles & Device Management**.

9. Under **Downloaded Profile**, click on **Stony Brook Medicine SBM-Employees**.

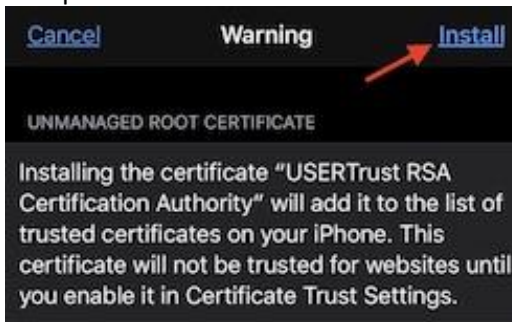

10. Click **Install**.

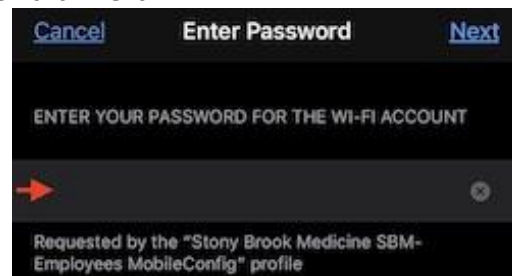

11. Enter your **iOS passcode** to confirm you want to install the profile.

12. In the warning screen, click **Install** to proceed with the installation.

13. Enter your **UHMC password**, then click **Next**.

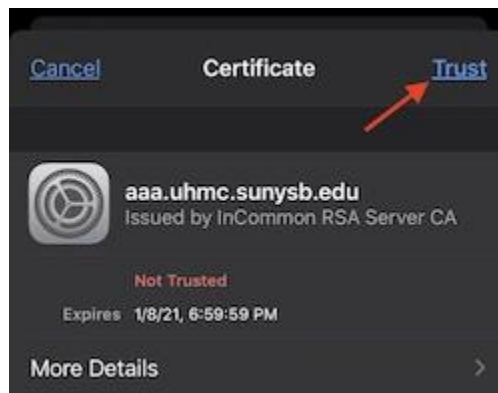

14. Once the profile is installed, click **Done**.

15. **[ON-CAMPUS Only]** Go to **Settings > Wi-Fi**. Under **My Network**, click **SBM-Employees** to connect.

16. **[ON-CAMPUS Only]** When prompted, click **Trust** to trust the certificate issued to Stony Brook Medicine authentication server.

17. You're now connected to **SBM-Employees** and can close out of **Settings**
